

INNOVATION DAY

Students,

On this day, you will be given time to work on your Discovery Quest Project. This means that you may do any of the following to work toward completing your Discovery Quest Project:

Research (using books, interviews, online resources)

Organization (Taking the information you have and deciding how it works together and where you need more information. This may also involve planning your final project.)

Project Production (Using your research to create posters, keynotes, glogsters, videos, or other visual aids. This may also involve writing your notecards, or “script” for your presentation.)

Please be aware, you are expected to **BRING MATERIALS** needed for your use. Because this is a work session, you need to have materials and a plan. You are responsible for deciding how you will use your time.

MY JOB on this day is to facilitate, assist, and provide guidance, feedback, computers, or other requests made **AHEAD OF TIME (project materials)**.

*******If you arrive without materials and without a plan, I will give you an alternate assignment to be completed by the end of the day and you will lose your project work time.**

*******Please use the Discovery Quest Inquiry Outline to guide you in the process!**
